The salary paid A. W. Small for the year 1897 and to the close of the year in August, 1898, was \$1,000, \$48 of which was tuitions paid into him by his pupils previous to the school meeting of '98 and no account made of in last report, which stated he was paid at the rate of \$900 per year. The balance of \$52 was paid this year, \$30 of which was on last year's account, and the remaining \$22 was for the balance of the year.

REMARKS OF THE SCHOOL BOARD.

In reality the school year does not close until August 31st. We have kept up the old custom of making our report to February 15th, which is the close of the financial year. Until the last term our schools have been successful and satisfactory. Whooping cough necessitated our closing the school in Division No. 5 this winter, which will be made up the coming year. The prevailing distemper kept many out in the other divisions, but not enough to warrant our closing any of them. Our several schools are under the supervision of tried and faithful teachers and good work has been done all along the line. We do not say we have the best schools in the state, still we think our's will compare favorably with the best, and that our teachers and scholars are above the average. We have made some changes in text books, have replaced Lippincott's fourth readers with Cyr's fourth, which gives us a complete line of Cyr's, from primer to fourth reader. United States History, Doe's American Citizen, and other text books are used for supplementary reading. The bad condition of many of the books now in use will require quite an expense to place them in good shape for another year.

Owing to the bad condition of the water in the well

at the Center school, the wooden pump has been taken out and the water brought into the cellar, where an iron sink and copper pump are in use.

We would call your attention to the condition of the two lower rooms in No. 1, and would suggest that new floors and new or partially new ceilings be put in. The house also needs painting.

We commend the interest you have taken in our schools in the past and ask that the same generous co-operation may be extended in the future.

This we understand is to show the amount of property we have on hand, for which the greater part of the present debt was incurred.

We have endeavored to place a fair value upon the property and can safely say that the income of the Town hall building itself will pay the necessary running expenses of the same, and also the interest upon the entire town debt.
